

Synonym Turkeys

Dear Families,

Recently we discussed the word "synonym". Synonyms are words that are spelled differently and sound different, but have the same meaning. For example, the word "angry" could also mean the same thing as *upset*, *mad*, *explode*, or *furious*. Soon we will begin making "Synonym Turkeys". Each feather on the turkey will be a synonym for the word that is on the body of the turkey. Please help your child think of synonyms, but don't worry that the words are spelled correctly. Encourage them to write the sounds they hear!

Please return these back to school no later than: _____
